Restoring files

Plug in Clickfree to your computer. When Clickfree starts and you see the Welcome screen, click on the Restore button.

Troubleshooting

Didn't start automatically?

1. Try unplugging Clickfree and plugging it back in.

Still didn't start?

If Clickfree hasn't started automatically there must be something on your computer that is blocking Clickfree. Please follow these steps:

1. Plug in Clickfree to your computer.
2. Click on the Windows Start button, click "My Computer" (Windows XP SP3) or "Computer" (Windows Vista, Windows 7).
3. Locate "ClickFree_System", Right click on "ClickFree_System" and select "Explore".
4. Double click "FixMyClickFreeBackup".

This should repair your problem.

Wireless Backup

Quick Start Guide

Clickfree Wireless Backup Drive

Caution

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.

Wireless backup with Clickfree is easy

1

Connect Clickfree's built-in USB cable to your wireless-enabled computer.
Wait for up to 60 seconds. The Clickfree backup program will start automatically.

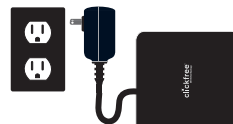

2

To backup other wireless-enabled computers within the same network, repeat step 1.

3

Disconnect Clickfree USB from all computers and plug in power adapter. Clickfree is now ready to wirelessly backup your computers.

NOTE: Clickfree must be plugged **ONLY** into a power outlet (and not into any computer) in order to perform wireless backups.

Notes:

The first time you connect a Clickfree device, these windows may appear:
